

INSTITUTE IS ENDED BY NEW LAW OF STATE

Education Conference to Take Place Next Spring

ORGANIZED IN 1918

Will Miss Coming of the Panhandle Teachers in September

After fifteen years, the Panhandle-Plains Teachers Institute, annually attended by from 800 to 1200 teachers has passed out of existence and in its place has come a Panhandle - Plains Conference for Education which will meet for the first time early in 1934.

September first will find the halls of the West Texas State Teachers College empty for the first time since 1918, at which time the great teachers institute with teachers from twenty-three Panhandle counties began to meet on the College campus under the direction of H. W. Morelock, now president of Sul Ross State Teachers College at Alpine.

The institute was abolished over the state through an act of the last legislature, and the executive committee of the Panhandle-Plains counties organizations met at Canyon recently to finish the business of the regional organization. Present were Professor F. E. Savage, secretary and conductor of the institute; Supt. C. H. Dillehay of Hereford, Supt. Ferman Sawyer of Canadian, County Supt. John B. Hessey of Pampa, Judge S. B. Orton of Canyon, County Supt. Ona Monahan of Stinnett, Supt. C. A. Cryer of McLean, Judge S. P. Matthews and Supt. I. H. Turney of Claude, and County Supt. B. C. McCasland of Tulla.

After dissolving the institute organization it was decided to form a regional conference for education which will hold its first meeting during the early months of 1934 at Canyon, with Supt. Ferman Sawyer of Canadian as president, Supt. B. C. McCasland of Tulla as vice-president and F. E. Savage of Canyon as secretary-treasurer.

Superintendents, principals, classroom teachers, county superintendents and school boards will be provided special features on the first program which will be largely financed with money left over from the former organization.

The annual meetings of the Panhandle-Plains Counties Institutes brought many celebrated educators to West Texas, many of them for the first time. Among the names found on the old programs appear Dr. David Snedden of Columbia University; Dr. George Praster; and Dr. W. D. Armstrong of Greeley, Colorado; Dr. A. L. Crabbe and Dr. B. P. Pittenger of Nashville; Dr. B. P. Pittenger and J. L. Henderson of Texas University, and many others.

During the first years the institute brought to many Panhandle teachers their only professional training during the year, and the intensive three to five day training is still remembered as very valuable by hundreds of teachers. During recent years since trained teachers have become the rule, the three day session has been used as

Wheat Conference Called Next Week

Plans for County Meetings Soon Will Be Announced

A conference of the district and county farm agents of the major wheat producing counties in this section of the State has been called to meet at Plainview next week, Aug. 16, 17, and 18.

Texas has been allotted 20,384,322 bushels of wheat to be raised in each of the years 1934 and 1935 for domestic consumption. This figure represents 54 of the State's 5-year average production, according to information received by O. B. Martin, Director of the Extension Service of the Texas A. & M. College, from Secretary of Agriculture Henry A. Wallace in regard to launching the wheat acreage reduction campaign.

Each wheat producing county has a definite allotment and within the counties these allotments will be sub-divided to wheat growers. The exact manner of making these allotments is not yet available but is expected to be fully explained to the agents at the conferences next week.

In return for signing the wheat acreage reduction contract, each grower will receive 20 cents per bushel on his allotment this fall and not less than 8 cents nor more than 10 cents after proof of compliance next spring. He will receive these payments regardless of the price of wheat. The 1934 and the 1935 payments will be based on the amount necessary to bring the price up to parity.

The growers who enter into this contract with the Secretary of Agriculture will be expected to organize county wheat control committees. This county committee in Randall county will be composed of nine men who will be elected from each of the nine communities already designated by the county agent. The county committee will select a paid director to devote his time to the business of the county organization. The salary and expenses of this executive will be deducted from the money to be sent into each county by the Administration.

Randall county has been allotted an acreage quota of 178,800 acres with an average yield of 10.8 bushels. This means a total of \$290,232.04 for the county this fall and next spring if all the land in the county is signed up. Only two counties in the state have higher allotments than Randall county.

The county agent will announce meeting dates and places for the various communities as soon as he returns from the district conference at Plainview next week.

Tennis Tournament Will Be Completed at College Today

Eighteen men and 12 women entered the first annual city tennis tournament which started at the College last Thursday. The final games will be played today, these being singles for both men and women.

In the singles for men, Leroy Landers and Winfield Fowler will fight for the city championship.

Miss Josephine Duflet and Miss Theresa Robinson will contest for the city championship for women. Contests for the doubles were completed Monday, with the following winners:

Women doubles, Miss Josephine Duflet and Miss Theresa Robinson, winners.

Men doubles, Leroy Landers and Clarence Wooten, winners.

Mixed doubles, Leroy Landers and Miss Josephine Duflet, winners.

The tournament has attracted more attention than was expected.

Gamewell and A. M. Smith Given Home Loan Posts

Announcements were made yesterday of the appointment of local attorneys and appraisers for all counties in the state for the new Home Owners Loan Corporation, which is headed in Texas by James Shaw.

W. I. Gamewell was named attorney for the corporation in Randall county, and A. M. Smith was named appraiser.

A branch of the corporation was recently opened in Amarillo which will look after the business in this section of the state.

Red Cross Needs Thread, Needles, Buttons and Chairs

The Red Cross Committee is needing buttons, thread, and needles for the garments now being made at the Relief Headquarters, according to requests made today. Formerly, public spirited women of the town have contributed their time for the cutting and sewing of the garments donated by the Red Cross, but this work is being done under the direction of the R. F. C. this year.

It is hoped that many of those who formerly contributed time for this work would give the needed buttons, thread and needles this year.

These items may be sent to the Relief Headquarters on the east side of the square or to Thompson Furniture Co.

Any who have chairs or sewing machines that they would lend to the workers are asked to call Mrs. H. O. Price or Mrs. T. C. Thompson of the Red Cross Committee.

School Trustees of Three Counties Will Meet Here Friday

School trustees of Randall, Deaf Smith and Parmer counties will meet in Canyon Friday afternoon at 2 o'clock in the county court room. A representative of the State Education Department will be here to explain to the trustees the new state aid law, and other laws passed by the last legislature which affects the schools of the state.

Judge S. B. Orton has sent an invitation to all of the trustees of Randall county, and to the county judges of the other two counties to be present and bring as many trustees as possible.

INFANT SON DIES

A son was born to Mr. and Mrs. Edward Gerald, Jr., at Columbia, Mo., last Wednesday, but lived only a few hours. GRAND JURY RETURNS 11 INDICTMENTS

August Term of Court Opened Last Monday Morning

TRY CIVIL CASES

Judge Bishop and District Attorney Hazlewood Here

The August term of district court opened Monday, with Judge Henry S. Bishop presiding, and District Attorney Grady Hazlewood in charge of the grand jury investigation. Eleven bills were returned yesterday by the grand jury, arrests having been made last night on all but four of these. Several of the indictments were returned against persons who were under bond awaiting the action of the grand jury.

Clyde Johnston was indicted for violation of the liquor laws.

Curtis Brown was indicted on liquor charges.

Hershey Miles was indicted on charge of theft.

"Governor" Ross was indicted for obstructing the railroad track.

J. H. Morris was indicted for theft.

Roy McCloud, Claudine Cleveland and Mable Morganfield, negroes, were indicted on liquor charges.

J. T. Williams was indicted on charge of theft.

It is expected that arrests will be made on the other four cases before the end of the week.

Members of the grand jury are: S. H. Condron, foreman, Albert Byars, H. A. Bassett, Anton Beckman, Wilson Campbell, G. M. Wilmoth, J. W. Byrd, G. B. Bourland, R. O. Allison, R. B. Gist, George Cox, and J. C. Barnett.

Regents Make Plans For the Coming Year

Eliminate Fees For Lab To Reduce Students Expenses

President J. A. Hill, Teachers College Regent J. E. Hill of Amarillo, and Professor T. M. Moore returned Tuesday night from Alpine where they attended the regular meeting of the State Board of Teachers College Regents.

The Regents authorized the college presidents to ask the State Department of Education to allow graduates of State Teachers Colleges who are home economics majors to teach this subject in all Texas schools which do not receive federal aid.

If this request is granted by the State Department it will enable the home economics department of the local college to train many more teachers than at the present time, and will be a great help to the college according to Miss Marion Normington, head of the department, and President Hill.

Another action of the Regents which will be of interest to prospective students is that of doing away with laboratory fees. Although tuition fees are higher in state schools than heretofore, there will be no laboratory fees for commercial or regular laboratory subjects, and the hospital fee will also be included in the tuition. This will mean that for many students the fee of \$12.50 for split semester of nine weeks or \$25.00 for semester will not be so high as expected.

Mr. Moore outlined his T-Anchor plan to the Board of Regents.

All of the party going from Canyon found it necessary to return before the meeting closed.

Condron, Barnett Visit Students Interested in W.T.

Professor S. H. Condron spent Monday in Armstrong county, interviewing prospective college students and doing other work for the college.

Professor Albert Barnett left this morning on a similar trip to Floyd county.

Many new plans have been worked out to enable students to come to school during the coming year, and President Hill is sending members of his faculty into the field to acquaint boys and girls and their parents with the new arrangements.

Miss Lenna Foster has gone to Anton where she will teach the coming year.

CITY COMES UNDER PLAN OF PRESIDENT

Will Make Canyon One Hundred Percent in Loyalty

MAYOR IS LEADER

State of Warfare Against Depression and Unemployment

Canyon will give practically 100 per cent support to President Roosevelt's blanket National Recovery Act, according to a check up made by the local advisory committee which was named last week. Mayor C. R. Burrow is chairman of the committee.

No meeting has been called by the local committee, as it is indicated that practically every business house in Canyon has entered into the blanket agreement, and will accept the general Code until the various vocational codes have been approved.

While it has been necessary in larger places to make intensive campaigns to bring in all of the business houses, this has not been necessary in Canyon. An honest effort is being made to live up to the provisions of the general code, and so long as that is done, the local committee will have little work to perform.

Mayor Burrow issued the following statement yesterday regarding the co-operation extended to the program:

"While we are going into this movement with whole-hearted enthusiasm, I want it distinctly understood, however, that we are going to carry out General Johnson's ideas to the letter in these two ways: There is going to be neither ballyhoo nor attempted coercion. This is a great patriotic movement, and nothing will be done contrary to the dignity that should accompany such an exalted movement. Here is the situation in a nutshell: We are in a situation really comparable to war. In many ways it has been worse than war, because in the case of war you can see and contact your enemy but in the case of this depression the enemy is intangible, invisible and invidious. There is not an individual or family circle in Canyon that has not felt the blighting effects in one way or another of this depression.

"Now, it is the idea of the Administration at Washington and of our corps of workers here in Canyon that every individual has a stake in the recovery that we are trying to bring about. We are all soldiers together embattled against the common enemy. And there is not a man, woman or child in Canyon who can not do something to help. Remember that. And all that is needed to win this victory is that each person do his share. This does not mean necessarily that any great hardship or loss must be suffered by anyone. On the contrary, the plan is so sound economically and the whole nation is swinging into the movement so enthusiastically that we feel sure that the army of old General Depression will soon be completely routed.

"Let me emphasize this fact: The Blue emblem will carry with it something of the same patriotic sentiment that we as Americans are pleased to accord to a soldier's uniform or to the flag of the nation.

"Every citizen of Canyon, therefore, can exert tremendous influence in this movement by throwing as much help and support as possible to those firms that, with fine patriotism, are entitled to display this badge of honor. Thus the whole community is being bound together in one great, sweeping movement which soon will put back to work every unemployed working man and working woman in Canyon. And we can all rest assured that while we are doing this here in Canyon every city, town and community in the nation will be doing the same thing."

RAY DAVIS VISITS HERE

Ray V. Davis of Carlsbad, N. M., visited a few days in the city this week, meeting old friends. Mr. Davis made many of the pictures in the Palo Duro Canyon which were instrumental in attracting wide attention to the possibilities of a state park. He photographed the Carlsbad Cavern before coming to Canyon.

Information Sent to Chamber Commerce

Information received from Washington this week to the local Chamber of Commerce stated:

"For the convenience of employers, the National Recovery Administration will make available through Chambers of Commerce, Trade Associations and Manufacturers Associations information contained in all present and future interpretations of the President's Re-employment Agreement. Obviously it will be impossible to supply separate copies of these releases to all employers, but the information contained in them will be supplied by the organizations mentioned without charge."

Daily new interpretations are being received from the National Recovery Administration and the Department of Commerce relative to the National Recovery Act. The information contained in the communications received by the Chamber of Commerce are available at the office of the organization. Employers who seek interpretations on the various sections of the Blanket Code are invited to use the information available.

Several Planning To Make Trip to Chicago Aug. 20

Several Randall county citizens are planning to make the trip to the World's Fair at Chicago on August 20th. The special train will start from Lubbock, and will pass through Canyon.

Round trip rates, including all expenses of the Fair except meals while in Chicago will be \$67.90 from Canyon or \$67.50 from Amarillo.

Reservations should be made by Randall county people with the Canyon News at once. \$10.00 deposit is required when reservations are made.

This will be the third trip sponsored by the Globe-News and other newspapers from this section.

Three Negroes and Booze Taken Monday East of City

Three negroes, Roy McCloud, Mabel Morganfield and Claudine Cleveland, were arrested Monday afternoon east of Canyon by Deputy Sheriff Glen Costley and Constable Shorty McCormick. Two half gallons and 12 pints of liquor were taken, together with a Chrysler coupe.

The three negroes are being held awaiting the action of the grand jury, which is in session.

Amarillo Men on Visit to Palo Duro State Park

T. E. Johnson, president of the Palo Duro State Park Association, together with J. O. Guleke, Wilbur C. Hawk and Mason King were here yesterday to view the work being done at the Palo Duro State Park. They were joined in the inspection by Judge S. B. Orton and Clyde W. Warwick.

Major James Watson showed the visitors the work under way, and told of his recent visit to Fort Sill where the Palo Duro project was discussed.

THE SPECIAL ELECTION

Texas voters are called upon to vote August 26th upon some important constitutional amendments. It is hoped that every voter will take sufficient time to make a complete study of the measures which will be presented.

The News presents a short digest of the amendments with a view that Randall county voters may have more information on the measures.

The first constitutional amendment provides for the adoption of home rule in counties having a population of 62,000 or more. This is an experiment in government, allowing the larger counties the right to govern themselves as to local laws, and the consolidation of local offices. Too much of the time of every legislature is taken up with local laws, regarding which no one but the sponsors know any of the merits or demerits. This new amendment would shift local law making back to the counties. So far as consolidation of offices is concerned, and the adoption of a more economical form of government, we consider this a mere pipe dream. It is the large cities and counties of Texas which are harder hit than the smaller ones during this depression. There is as much urge to over-spend in the large counties as in the small. However, we are willing for the large counties to try out this method of government, but resent the idea that the large counties of Texas have so many more brains than the balance of the counties that they are the only ones who would participate in the benefits of this amendment.

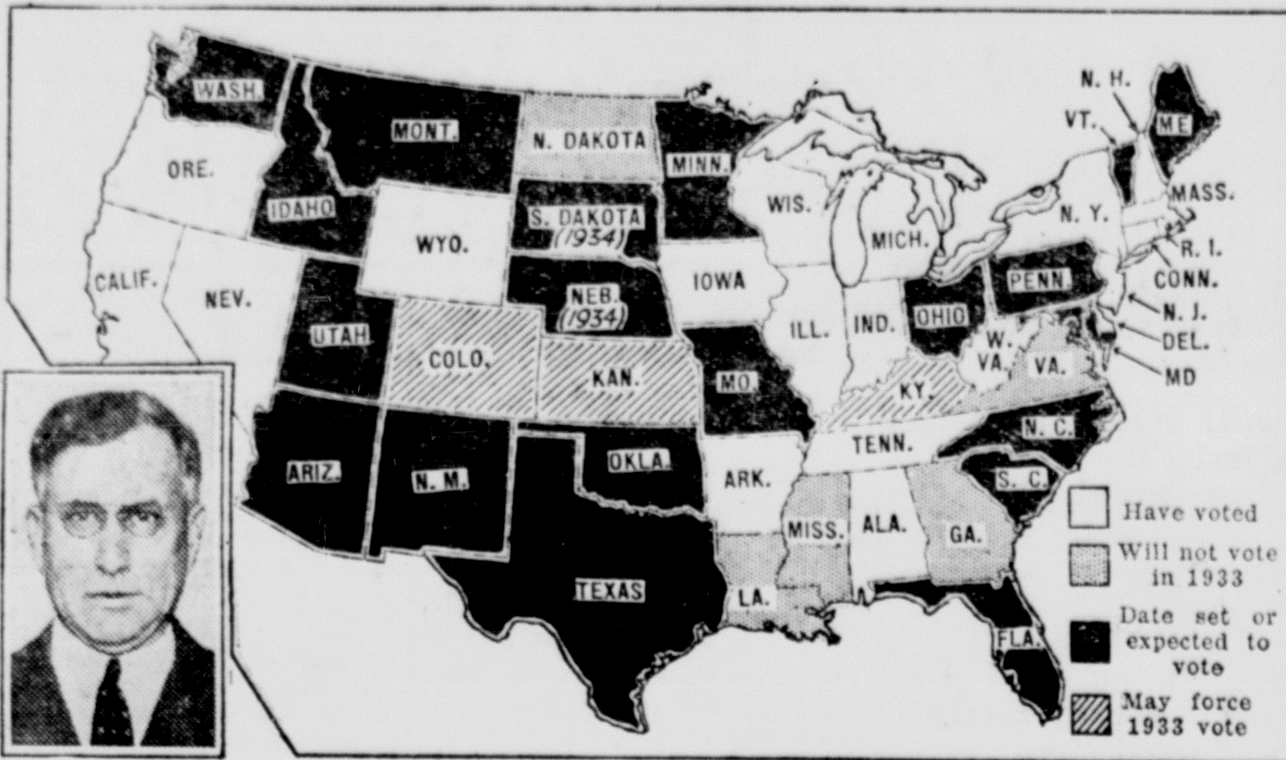

The next amendment will be to authorize the legislature to issue \$20,000,000 in bonds for relief. The federal government will withdraw support if Texas does not provide some means of assisting in relief work. There is great opposition to this amendment, many citizens believing that the administration will be too expensive under the present machinery which has been set up in Texas. Commissioners courts and others who have been called to Austin by Governor Ferguson to consider the great problem confronting the state during the coming winter are convinced that something must be done. How the bonds will be paid off, or who will even buy them under the terms submitted is a mooted question. However Senator Clint C. Small is converting large numbers of people in this district to the bond issue in declaring that he opposed the bond issue until convinced that it was properly safeguarded and that there was no way out whereby the poor people could be cared for during the coming winter.

The next amendment would legalize 3.2% beer in Texas. Of course it is absurd for congress to say that 3.2 beer is non-intoxicating, and for the constitution of Texas to say that it is intoxicating. In advocating the return of liquor, the anti-prohibitionists maintained that they would place every safeguard around dry territory. But as was generally expected, this was an empty gesture. If beer is legalized in Texas, the saloon will return, with all its attending evils. Those who advocate the return for legalized liquor as a means of stimulating business, have only to look around them and see what liquor has done to hundreds of business men who have lost their all through the use of business.

The last amendment on the ballot is a corrective one, which would allow 17 coastal counties to have the benefits of the \$3,000 homestead exemption when the period expires for their state taxes are exempted. If the amendment does not carry, these counties will be penalized over and above the balance of the state so far as state taxes are concerned.

On a separate ballot is the call for a convention to pass upon the repeal of the 18th amendment. Thirty-one wet delegates, together with 31 wet alternates are listed in the first column under the heading "for the ratification of the above amendment." The second column contains the names of the dry delegates and alternates. The voter who favors the repeal of the 18th amendment will run his pencil from top to bottom through the names in the second column; and those who wish to retain the 18th amendment will mark out all of the

With Repeal Vote Standing at 20 to 0, Wet Leaders See Victory by 1934

The above map shows the way the repeal vote is going. Inset is J. J. Shouse, president of the Association Against the Prohibition Amendment, who sees a wet victory by 1934.

REPEAL by 1934!

That's the slogan of wet leaders throughout the country, and it appears as if fulfillment of that slogan is due to come about before the end of 1933.

When the Blaine resolution for repeal of the 18th Amendment came up in the Senate in February, it is doubtful if any of the legislators realized the wet sentiment in the United States. But ever since Michigan started off the moist parade on April 3, the evidence of strong wet sympathy has been expressed unanimously by 20 states.

As the list for repeal now stands, 20 states expressed their favor for voting for it. These are Michigan, Wisconsin, Rhode Island, Wyoming, New Jersey, New York, Delaware, Nevada, Illinois, Indiana, Massachusetts, Connecticut, New Hampshire, Iowa, California, W. Virginia, Arkansas, Alabama, Tennessee and Oregon.

Twenty-one more states are expected to vote on repeal before the end of this year, and J. J. Shouse, president of the Association Against the Prohibition Amendment believes that the necessary 36 states will fall into line.

THE big surprise in the voting camp from the dry south, when four southern states—West Virginia, Arkansas, Alabama and Tennessee—voted for repeal.

This unexpected action is believed to have been caused by President Roosevelt's plea to the south to vote dry law repeal in accordance with the Democratic platform.

With this sentiment expressed by voters in the south, it is believed that other states in that section will follow suit.

Wets are looking for Texas, which holds its election Aug. 26, to give them their hardest fight. But it is expected that Texas Democrats will rally to the support of Roosevelt and the Democratic wet plank to register a wet victory.

Other states which will hold certain votes on this subject this year will be Missouri, Washington, Vermont, Maine, Maryland, Minnesota, Idaho, New Mexico, Florida, Arizona, North Carolina, Ohio, Pennsylvania and South Carolina.

Colorado, Kansas, North Dakota, Louisiana, Mississippi, Kentucky, Virginia and Georgia will not vote on repeal this year, but it is expected that special legislatures will be called in Colorado and Kentucky

to settle the issue. Nebraska and South Dakota have already set 1934 dates for voting.

BISHOP CANNON, a dry of the first water, held a lot of hope for the failure of repeal until the Indiana vote. "If we can save Indiana, we can save prohibition," he remarked before the balloting. So, from that, prohibition appears to be lost.

President Roosevelt's purpose in backing the repeal movement so strongly is that he firmly believes it is the desire of the majority of the people and that the heavy taxes now necessary to carry a public works bond issue can be wholly eliminated when repeal is brought about.

Shouse, in a recent quotation, revealed some interesting calculations made by Pope R. Hill, assistant professor of mathematics at the University of Georgia. Professor Hill has figured out that there is less than one chance in 2,500,000,000 for the dry forces to win.

"I believe this answer to be an accurate and as mathematically certain as the fact that six times five equals 30," Shouse asserts.

So maybe we'll be burning brandy on this Christmas' plum pudding.

Darlin' Derline

Isn't she a little darlin'? The 2-year-old miss, Derline Smith of Los Angeles, won the unanimous vote of judges in the annual health baby show of the recent American Progressive Chiropractic convention, being found 100 per cent perfect. She won over 78 other babies.

A spinster always turns up her nose at a woman who has been divorced.

names in the first column.

Every qualified voter in Randall county should go to the polls.

School trustees should not be too elated over the \$16 per capita which was set last week in face of the fact that there is not money enough to pay more than \$12 or \$13. The rate this year of \$16 is still lacking \$6 of being paid. It will be still harder next year to pay the apportionment owing to the \$3,000 homestead exemption which will take several millions out of the school fund. School trustees will be wise in shaving their budgets as close as possible as the coming year is going to be harder than the past one has been.

The government will inaugurate a buying campaign in order to bolster up the higher prices resulting from NRA. There has been almost a buyers' strike owing to

the fact that the public has demanded lower and lower prices on staple merchandise. Factories and mills are again running. Prices are increasing; but unless the goods move from the factories to the stores, and on to the people, all of the Recovery program will fail. The fact that the recent bond issue offered by the government was over-subscribed six times is evidence enough that there is still plenty of money in the hands of the people. The great need now is for this money to again start its flow through commercial channels.

It was a wonderful response that has been given President Roosevelt under the National Recovery Act. The seriousness with which the American people are attacking the problems confronting the nation remains one more of war time than of peace time. It took several years of extravagance to get us

into the present mess; it will take months to get us out of our difficulty. NRA is not going to make everything rosy in a month or so. Following the daring and fearless leadership of Roosevelt will bring out recovery sooner or later. It is a happy situation when the nation has such leadership and such willing followers.

The state tax rate has been set at 77 cents on the \$100 valuation. Governor Ferguson did a wise and fearless thing in vetoing a bill which would have limited the tax rate in view of the millions of dollars deficit existing. Setting the rate at the constitutional limit was unwise from a political standpoint, but had Dan Moody and Ross Sterling not side-stepped the issue, lowering the tax rate in spite of the mounting deficit, conditions would not be so bad in Texas today.

In commenting on the water famine at Amarillo and its disastrous results to that town, present and future, the News has frequently said that if they ever got pure water and plenty of it, they must come to Canyon City fountains for it. This, it seems, the people of Amarillo are now about to do. The proposition is to dam the Palo Duro Creek on the Fred Hoffman place, above this town about eight miles, and from thence furnish both towns with water. With this object in view a company was formed in Amarillo and the purchase of the Hoffman place followed.

The first named gentleman is president of the Canyon Lumber Company, the second the vice-president, and all the others, host included, are managers of so many yards owned by this well known company. The fare consisted of boiled ham and other staples of the meat character, vegetables, pickles and such like and was topped off with several quarts of ice cream and many layers of cake. Week-Ending Guests Should Pack Light

FOUR OUTFITS—TRAVELING, SPORTS, EVENING AND TEA DANCING—SHOULD FILL THE BILL FOR A WISE SHOPPER

BY HARRIET

A WEEK-END guest who brings along not too many clothes, but just the right ones, is a joy to any hostess.

Say what you will, the guest who packs light (and doesn't clutter up the store room with boxes and bags), but at the same time has the right apparel for any occasion, is more apt to get another week-end invitation.

You need no more than five outfits for even the most elaborate invitation to week-end somewhere. If you're going to a camp in the woods or a farm in the country, three will do nicely.

Your first consideration should be a traveling costume. Arrive in an outfit which isn't wrinkled from motoring or riding in the train. It's the dress in which you make your first impression on the other guests, so choose it wisely.

The sports clothes you'll need depend entirely on the type of place you are visiting. If there is no water nearby, why bother with a bathing suit and its accessories?

You'll probably need one evening gown. Take something which doesn't wrinkle too much when you pack it. Hostesses hate guests who ask for an iron the minute they arrive. It upsets most households.

You're sure to witness at least one sports event. A spectator sports ensemble, therefore, is very important. Why not have a white one? White is always cool in the summer.

It's an excellent idea to have a two-piece spectator sports outfit, consisting of sleeveless dress and matching jacket or cape. You can remove the jacket and play tennis in the dress.

The fourth dress (outside of whatever active sports things you intend to take) must be something you can wear for tea dancing, informal lunch and perhaps to church on Sunday. That sounds like a big order, but it can be done if you shop diligently.

A DRESS of handblock English muslin in white with lovely big roses tied like a bouquet down the front is just the kind of a frock to serve for many occasions.

You can wear it to luncheon, tea, church and around the porch or even the swankiest country club.

The design of the frock is Empire with a 10-inch pleated band

A mass of roses tied like a bouquet down the front, is the feature of the dress of Empire design on the left. It is a garden party frock by Mlle. Marie, New York. The cartwheel hat is of cellophane woven like straw. The spectator sports outfit at right is made of aloe crepe. The gown has a square neck and the cape is trimmed with a five-inch band over the arm.

The small cap sleeves are bordered with inch pleating.

The dress is untrimmed, depending on the roses in the material for its charm and decoration.

A large cartwheel hat of cellophane straw is trimmed with muslin flowers cut from the same fabric as the dress.

A striking yellow spectator sports ensemble is made of aloe crepe. The sleeveless dress has a square neck set off by hand fagoting and

trimmed with buttons across the shoulders.

The cape of matching material ties in front and is trimmed with a five-inch band, embroidered with pastel colored daisies in wool and silk.

Yellow suede oxfords, trimmed with rich brown patent leather, and a white straw hat with brown band are worn with the dress.

It's the kind of a costume which is invaluable to the person who is packing for a week-end out of town.

SMALL TOWNS PROSPER

Various Jeremiahs some years ago said that the small town was doomed to decay. The direful predictions made have not come to pass. On the contrary, the small town in the last three years has fared as well as the city; in many instances better. There have been hardships in small towns, but cases of downright sufferings have been few. Suffering remained for the city. A strong rural America means many small towns, and a prosperous rural life means prosperous small towns. The farm and the small town travel together hand in hand, and apparently they have been traveling forward since about the first of this year, in spite of the wall of the Jeremiahs—The Earth.

GOOD ADVICE

He who every morning plans the transaction of the day and follows out that plan, carries a thread that will guide him through the labyrinth of the most busy life. The orderly arrangement of his time is like a ray of light which darts itself through all occupations. But when no plan is laid, where the disposal of time is surrendered merely to the chance of incidents, chaos will soon reign.—Victor Hugo.

It was thoughtful of nature to endow some people with traits so as to give good people something interesting to talk about.

Conceit puffs a man up but no one was ever able to stay up very long on air alone.

About the rarest thing on earth is something for nothing.

MRS. WITT HONORED BY SHOWER TUESDAY

In honor of Mrs. Marion Witt, who is to leave Canyon soon, the Methodist Missionary Society gave a handkerchief shower Tuesday, August 8, at the home of Mrs. Elizabeth Fry Page.

The entertaining rooms of the Little House of Fellowship were gay with bouquets of garden flowers. When Mrs. C. M. Dowlen presented the handkerchiefs, she spoke in behalf of the society in expressing their appreciation of Mrs. Witt herself, and of the work in the church. Short talks were made by Bishop Seaman of Amarillo and Rev. C. W. Poote of Canyon.

Miss Frances Usery played two piano numbers, "A Little White Burro," and "Country Gardens," following which Miss Mary Ella Lowe read "The Prayer Rug."

Two vocal solos, "Hark, Hark, the Lark," and "Little Brother's Lullaby" were given by Miss Ada V. Clark. Reverend Poote read "Hunting a Mouse," and "A Hoosier Describes Rubenstein's Train." The program was concluded by Miss Gwendolyn Black's piano solos, "A La Cubana," and "Arbesque."

Refreshments of iced punch and cake were served. Out of town guests were Bishop and Mrs. E. J. Seaman of Amarillo, Mrs. George Reynolds of Huntington Park, California, Mrs. J. Edwin Brown of Lubbock.

The society will meet August 15 at three o'clock at the Methodist Church with Mrs. Agnes Smith as leader. The subject of study will be "Place of Women in the Church."

LOWRY-HALE RITES PERFORMED TUESDAY

Miss Hazel Lowry and Mr. Alex Hale were quietly married Saturday afternoon at three o'clock at the home of Rev. Sumrall in Amarillo.

The bride, who is the daughter of Mr. and Mrs. R. D. Lowry of this city, is completing her senior work in W. T. S. T. C. this summer. The past year she taught in the Bladgett school, near Spearman, and expects to continue her work there next year.

Mr. Hale is the son of Mrs. Emma Hale of Canyon. He is a graduate of W. T. where he was prominently connected with college athletics, having played on the football and basketball teams, four years. He is at present employed with the McKnight Road Construction Co.

The couple are making their home at 1002 Tyler St., Amarillo, at present.

MRS. HENRY PRICE HOSTESS TO B-JOLLY CLUB

Mrs. Henry Price was hostess to members of the B-Jolly Club Friday afternoon. Guests were entertained by the exchanging of "Capsule Friend" gifts. Refreshments of lemonade and cake were served to the following: Mrs. Wayne Barrie, Mrs. Earl Russell, Mrs. Walter Kirkpatrick, Mrs. Bill Money, Mrs. Bill Charles, and Mrs. Charlie Stratton.

John Fry of Lubbock was in Canyon the first of the week attending to business.

THURSDAY THIMBLE CLUB WITH MRS. DICKERSON

The Thursday Thimble Club met at the home of Mrs. W. M. Dickerson, August 3. Vases of zinnias and shasta daisies made the room attractive for the occasion. The group engaged in a study of the 13th chapter of Matthew. Mrs. J. T. Marshall explained the scripture in a very satisfactory manner.

After a few minutes spent on various kinds of fancy work, the hostess introduced the games of the afternoon. Guessing names of birds and flowers was quite entertaining. In the last game, Mrs. Vanarsdall was given a surprise shower, the gifts having been hidden in various places in the room.

The president, Mrs. Stanley, presided at the business session. The constitution and by-laws will be read at the next meeting.

Refreshments of iced tea and cakes were served at the conclusion of the delightful afternoon.

Those present were: Mrs. Bill Money, Mrs. J. T. Marshall, Mrs. George L. Stanley, Mrs. W. A. Black, Mrs. W. G. Shackelford, Mrs. Carl Vanarsdall, Mrs. J. E. Greenfield, Mrs. Charles Stratton, Mrs. W. M. Dickerson, and Mrs. J. E. Miller.

The next meeting on August 17 will be held with Mrs. J. E. Greenfield. Members are asked to answer roll call with a short poem or verse.

TEA GIVEN IN HONOR OF VISITORS

Mrs. Clyde Warwick gave a tea entertaining members of the Friday Afternoon Club and the 1930 Club on Friday afternoon, honoring Mrs. Walter Woodward of Coleman, Mrs. Walter Woodul of Houston and Mrs. H. Abney of Sherman. The hostess was assisted by Mrs. Clint C. Small of Amarillo and Mrs. A. B. Martin of Amarillo, who is a sister of Mrs. Abney.

Mrs. J. A. Hill and Mrs. C. N. Harrison were guests of the clubs for this occasion.

FRIDAY AFTERNOON CLUB GAVE PICNIC

The Friday Afternoon Bridge club gave a picnic Monday night on the lawn of Mrs. C. R. Burrow. Mrs. R. A. Nebbett, Mrs. Guy Harp, Mrs. Clarence Thompson and Mrs. Bill Smith were hostesses for the occasion.

A picnic supper was served, followed by an informal program of readings and music.

JOWELL H. D. CLUB WITH MRS. W. R. LANDRUM

Mrs. W. R. Landrum was hostess to the Jowell Home Demonstration Club Wednesday afternoon at her home, six members and two visitors being present. Plans were made for the county fair and for the encampment.

The next meeting will be at the home of Mrs. C. P. Robertson.

Mattern "Went Primitive" in Siberia Crash

Forced down in the wilds of Siberia when his round-the-world plane, The Century of Progress, failed, Jimmy Mattern, U. S. flyer, got a taste of the primitive. Mattern was rescued by a group of Chukchi natives after two weeks of suffering from hunger and cold, and lived with them for a week before starting back to civilization. Above Mattern is shown kneeling in front of a group of the primitive tribesmen.

Publicity on Palo Duro State Park is Being Sent Out

By W. B. GRAUEL
Company 1828 C. C. C.

Just after the supper meal Tuesday night, volunteers from Cos. 1828 and 1829 were called out to quell a fire in the canyon. T. P. Crone of Houston, a member of Co. 1828, was one of the first on the scene and partially through his personal efforts, the blaze was quickly under control.

Seth A. Sheppard, Ed Bump and other platoon leaders were active in assembling the men and leading the assault on the fast-advancing fire. It caught near the extreme west tip of the canyon wall around which three companies are constructing the new road.

Rev. H. A. Stroebel of the Lutheran Church will conduct services at the camp next Sunday at 6 p. m.

A considerable amount of favorable publicity for Palo Duro Canyon is resulting from the activity incidental to the improvement program now in progress at the canyon.

Representatives of a large photographic concern took a panoramic view of the canyon Monday afternoon, copies of which will be offered to newspapers over the United States.

A photograph of the camp and the entire personnel of the camp also was taken, being regarded as one of the feature pictures of C. C. C. work anywhere.

It is stated that the Palo Duro Camp, with 600 Texas World War veterans engaged in constructing a road into the canyon, is the largest anywhere in the country.

This correspondent, co-operating with J. B. Elliston, assistant to the chairman of the State Park Board and A. E. Terry of Canyon, official photographer, has forwarded articles and photographs to such newspapers as the Denver Post, Kansas City Star, Washington Star, the use of which will be valuable publicity for this section.

Quite a number of the men have sent to their respective counties for absentee ballots to vote in the August 26th election.

Miss Frances Marshall of Palo Duro community has been elected "Company 1928's Sweetheart." Sunday night, in appreciation of her musical talent and interest in the recreational program at the camp.

The use of government trucks to carry the men to Canyon and Amarillo on Saturdays and Sundays has been resumed in part, one truck going from each company. The demand for seats has been greater than the supply.

Baseball games were a feature Sunday, Company 1828 defeating Company 1824 by 8 to 1, then losing to the boys of the Palo Duro community. Both games were regular baseball affairs, and followed with much interest.

Mr. and Mrs. Chas. R. Flesher and daughters, Billie Bee and Natalie have just returned from East Texas where they visited with Mr. Flesher's parents the past two weeks. They returned by way of San Antonio where they visited several days.

AN OLD TUNE

Valet (to master)—"Sir, your car is at the door."
Master—"Yes, I hear it knocking."

Do all the good you can, in all the ways you can, to all the souls you can, in every place you can, at all the times you can, with all the zeal you can, as long as ever you can.—John Wesley.

Many people know through bitter experience how easy it is to get into debt and how difficult it is to get out again. Pay as you go is a good habit to get into; that is, if you can.

Doctor: "That man owes me over \$200 for services."

Friend: "Won't he pay you?"

Doctor: "Pay me! He won't even worry about it."

Before the government guarantees all bank deposits it might as well for congress to pass a bill compelling all men to be honest.

Teacher: "Who was the Black Prince?"

Johnny: "The son of Old King Cole."

Fairview Breezes

The light shower that fell last Friday was welcomed by every one. However, it was not enough to do much good.

We had more out for Sunday School Sunday than we have had in several months. Our revival will begin on August 16 and every one is cordially invited.

GETTING THINGS DONE

There is a faculty given to some men that it is hard to find a phrase for. It is the faculty of getting things done.

It is a gift. A man may have ability, education, training and ambition and still lack the genius that gets things done. Another man who has had little or no education and whose training has been the most haphazard, without any fuss or ado will seem to accomplish the impossible.

Part of it, perhaps, is a daring to tackle things that seems impossible to others. Perhaps another part is made up of intense concentration and steady patient work. There is always a sort of placid certainty about the man who gets things done.

In almost any small community can be found the man to whom the residents inevitably turn when something especially difficult to solve comes up in the life of the community. For some reason this man is seldom in an official position. He seems to have no flair for politics. He is more apt to be found running a business of his own and taking a comfortable and unostentatious part in the affairs of the village. He may be a diamond in the rough. He never dictates. He never boasts. He never exaggerates. He never scolds. But somehow, as if by a magic touch, when something is badly needed, he manages to get it done.

In the larger communities and the big cities it takes longer for the man who gets things done to be recognized, but eventually he is discovered and used. He is the man of the smaller communities, only his opportunities are larger and therefore his accomplishment seems more important.

Not always does he get the credit for it. And it is characteristic of him that he doesn't care.

Keep Cool While Jig-Sawing

When those pesky jig-saw pieces refuse to go together, and you get hot under the collar, follow the example of Adrienne Ames, movie star. She has taken her puzzle and bathing suit to the water and all she has to worry about is the waves washing it apart after she gets it half together.

Kidnaping—Death Is Penalty

Terror stamped on their faces, the three young men above discuss the futility of kidnaping. Walter McGee, right, has been sentenced to death for the kidnaping of Mary McElroy, daughter of the city manager of Kansas City. George McGee, center, his brother, and Clarence Click, left, are to go on trial soon for complicity in the case. They are shown in the Kansas City jail.

WAKE UP YOUR LIVER BILE—WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, oil, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine.

For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily.

If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas bloats up your stomach. You have a thick, bad taste and your breath is foul. Skin often breaks out in blemishes. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get these two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, gentle vegetable extracts, amazing when it comes to making the bile flow freely.

But don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name Carter's Little Liver Pills on the red label. Resent a substitute. 25c at drug stores. © 1931 C. M. Co.

THE NEW DEAL IS WORKING

The worst is over. A business revival is on the way. Start now to organize your office and be ready for the trade that is to come.

Buy in August

It's the sensible thing to do, it's patriotic and it's good business.

Prices Are Advancing Daily

In every mail we receive notices of price advances in office supplies, fixtures, printing materials and printing papers. These advances range from 15 per cent to as high as 100 per cent. The manufacturers have been ordered by the government to make a profit. They have been selling too cheaply and as a result the public has been buying at prices far below normal.

All printing papers, ink and other supplies have advanced sharply as well as metal and news print.

We Are Not Advancing Prices Until Present Stock Is Exhausted

We are not taking advantage of the rise in prices, and will continue to sell at old prices while our stock lasts. Again we say—buy in August.

Check Over Your Wants for Office Supplies

You'll probably never buy for less than you can BUY IN AUGUST.

This is the first time we have ever made such an appeal to our customers. We base our reputation on its soundness, timeliness and truth.

Annual Anvil Chorus Yells for Scalps of Managers Bush, Carey, Harris and Shotton; Frisch Goes Hot as Manager

BY PHILIP MARTIN

WITH two American and one National League team changing horses in midstream, there arises much comment by unemployed workers of the Hot Stove League as to how many new faces will appear in the Union of Baseball Managers next season.

Cleveland was the first squad to hire a new manager when Alva Bradley fired Roger Peckinpaugh and hired Walter Johnson to take his place. Then Gabby Street was ousted by the Cards, Frankie Frisch replacing him, and the Browns, who had let Bill Killefer go, made Rogers Hornsby pilot of the St. Louis American League club.

There have been several rumors concerning the replacement of other second-division team managers. The one carrying the most weight is that which says Sid Weil, president of the Cincinnati Reds, will replace Donie Bush next season.

Donie, handicapped by illness, failed to weld his conglomeration of players into a winning unit this year. After the sorry showing of the Reds in the past couple of seasons, this caused Cincinnati fans to stay away in droves, which in no way warmed the cockles of Weil's heart.

MAX CAREY of the Dodgers is another said to be on the skids. The Brooklyn boys went into the beginning of the season with a squad figured to be one of the best in the league. But they've fumbled away a lot of games to make a poor showing, and the fans and officials are dissatisfied.

Bucky Harris, ringmaster of the Detroit Tigers, is all set for a rocking chair job, so the soothsayers have it. His team has been an in-and-out all season after a pre-season ballyhoo that forecasted great things. But it'll be hard to force Bucky out. Frank Navin, his boss, is his pal, too, and that friendship will be valuable under the pressure being brought to bear.

With one of the best bunch of batters in either league, Burt Shotton, leader of the Phalaterin' Phils, has made a sorry showing. Klein, Davis, Fullis and Schulerich, all hitting from .325 to .365, have not been enough to get the Phillies

Old faces in new roles are those of Rogers Hornsby, left, and Frankie Frisch. Rogers is the new manager of the St. Louis Browns, and Frankie is leader of the St. Louis Cards.

places. And maybe Chuck Klein'll manage them next year.

FRANKIE FRISCH seems to have made good in his new job in a big way. Right after he took over the reins the Cards, inspired by their new leader, went out and clicked off six straight victories, and jumped from fifth to third place in a week.

The boys seem to be playing their hearts out for their new leader, Dizzy Dean, the boasting heaver,

went out and set a modern record for strikeouts when he whiffed 17 Cubs in one game, and when Dizzy bears down that way for a manager, you can bet that he's working plenty hard.

It's tough to dope out Hornsby's chances with the Browns, but it's pretty certain he'll not get very far with the aggregation he has now. Next year, however, will be another story, and you can look for a lot of new faces in the Brown's lineup next spring.

Dam to Give Northwest Power

In line with President Roosevelt's promise to provide cheap electric power to the Pacific northwest, a huge hydro-electric dam, costing nearly \$63,000,000, is to be built across the Columbia river, near Bonneville, Ore. This dam, to be 145 feet high, will also promote navigation on the river. The photo above shows a steamer in the river near Big Eddy, Ore., part of the territory to be effected by the dam.

Mr. and Mrs. A. D. Fewell and daughter Gwendolyn and Ardean White left Sunday to visit relatives in South Texas. They expect to be gone about ten days.

Visitors in the J. J. Leavitt home Sunday were Mr. and Mrs. C. B. Fewell, C. W. Fewell, Clyde and Howard Robertson, Mr. Powell and family, and Tom Hileman.

Mrs. C. O. Hayes and daughter Lois, and Mrs. F. E. Culp spent Sunday afternoon with Mrs. Earl J. Davis.

Abbie Leavitt visited with Mildred Scott Sunday.

RESOLUTION OF RESPECT

Whereas, God in his infinite wisdom has called to his heavenly home our co-worker, Dr. J. M. Black, it seems appropriate for us to speak a word of appreciation of him and his life with us. We feel that the church has lost a loyal friend and a staunch worker and that his place will be hard to fill, if, indeed, it can ever be filled. Noted as he was for his devotion to his home, his community, and his church and the ardor with which he supported these institutions with his means and his wise counsel, the Session especially realizes how real is the loss in the passing of this princely Christian gentleman.

Therefore, be it resolved that a copy of the above statement be given to Mrs. J. M. Black and children, that a copy be placed in the Minutes of the Session, and that a copy be given to the Canyon News for publication, as the official statement of the Session of the Presbyterian Church of Canyon, Texas.

HARVEY CASH,
Clerk of Session.

PROOF ENOUGH

Stopping to pass the time of day with a Missouri farmer, a tourist learned that the farmer's father, who was ninety years old, was still living and working on the farm where he was born.

"Ninety years old, eh?" asked the tourist.

"Yes, father is right close to 90," the farmer replied.

"Is his health good?"

"Tain't much now. He's been complainin' fer a few months back."

"What's the matter with him?"

"I dunno. Sometimes I think farmin' don't agree with him."

TRUE FREEDOM OF THE PRESS

When Americans think of the freedom of the press they think of the liberty to report news honestly and without libel or libelous intent, but more particularly the liberty to discuss without intimidation such matters as affect the right to applaud or to criticize the public as a whole. It presupposes public acts of government and its servants, from the President down. Such independence is guaranteed the press in the Constitution of the United States—San Mateo (Calif.) Running Picket Line in Mine War

Nearly 40,000 miners in Pennsylvania's soft-coal district went out on strike and the resulting war with coal operators and non-striking workers caused national guardsmen to be called. One miner was killed and scores were injured. The above photo shows a non-union worker running the gauntlet of strike pickets protected by guardsmen at Pootedale, Pa.

County Chairman In Plea for Bond Issue

County Chairman A. M. Smith of the County Democratic Executive Committee stated yesterday that he was greatly interested in seeing that Randall county was carried in favor of the \$20,000,000 bond issue to relieve the unemployment of Texas. Mr. Smith is planning a public gathering before election time for the purpose of discussing all of the proposed amendments, but primarily the one providing for the bond issue.

"Of all the constitutional amendments, I believe the one provided for the unemployed is by far the most important," stated Mr. Smith.

"Many thousands of good men and women have been living on their reserves for the past three years and that reserve will not last always—in fact it has already been exhausted with a vast majority. The drought is spreading and no one can foresee how severe it may become if it should continue. We will be unable to get wheat up and there is no grass to keep cattle here, no feed for hogs, and another failure of these money crops would increase demands upon charity beyond our ability to meet and render many who have been contributing to the support of relatives and friends unable to continue."

"Under our constitution our legislature is prohibited from contributing or donating public funds for any purpose—no matter how acute the situation may become."

"Just remember that you are not voting bonds. You will simply be vesting the legislature with power to meet such crises as may develop. The present legislature is economically minded and will not issue more bonds than are absolutely needed. The Lord helps those who help themselves, and if we refuse to help ourselves by voting these bonds you may rest assured that our national government will withdraw financial aid that is so badly needed under this unprecedented condition."

"Every safeguard has been thrown around both selling of the bonds and the expenditure of the money. There is no commission in selling the bonds and the money will be expended in the most economical way by efficient and public spirited citizens without com-

pensation. Our present administration, including our own congressman has done and is doing everything humanly possible to alleviate distress and give us common every day folk a new lease on life. They have ignored precedents and beaten paths and are executing the new deal, that has given us hope and sustained our morale, and right or wrong, we must give our whole-hearted cooperation."

"No matter how you choose to vote on the other issues, there should not be a single vote against the relief bonds in this county," believes Mr. Smith.

Amarillo Investment Co. vs. S. P. Robinson et al., judgment for plaintiff.

WEST TEXAS GAS COMPANY AND PIPE LINE UNITED

Announcement has been made by R. P. Hinchey that the West Texas Gas Company and South Plains Pipe Line Company have been united and will be directed under the same organization.

Reduction in expenses, and rendering more efficient service to the patrons was given by Mr. Hinchey as the reason for the change.

The pipe line has carried gas to about 40 towns starting with Canyon and continuing south, while the West Texas Gas Company acted as distributor for these towns.

Head offices are maintained in Lubbock.

Episcopal Church Discussed Tuesday By Bishop Seaman

A classification talk on the Episcopal Church was made Tuesday at the luncheon of the Rotary Club by Bishop E. C. Seaman of Amarillo. Doug Shirley, chairman of the Fellowship Committee, was in charge of the program.

Visitors present were: Ray V. Davis of Carlsbad, N. M.; Bishop Seaman, Grady Hazlewood, C. Willard Smith, F. A. Zimpher, W. S. Norman and Hugh L. Jacobs of Amarillo; Lewis Shirley and J. B. Elliston of Canyon.

Bishop Seaman outlined the history of the Episcopal Church since the days of the apostles. "Religion makes partisanship essential," stated the speaker. "Yet it was the reasonableness of Jesus which commands him to all people."

"The work of the preacher is to draw men to God, and this cannot be accomplished through ridicule," stated the Bishop. "I can get along better with an enthusiastic member of any other church than with a luke-warm one of my own church. The church is the oldest institution among men, except the family. It has survived all kinds of government, and all kinds of governmental interference."

The Episcopal church is national in idea and in government. The church in America was founded in Jamestown in 1607, and was separated from the English church upon independence. The national idea was carried out during the Civil War, with two branches being formed, but union followed immediately after the war.

"Confirmation is the distinctive thing about the Episcopal church. But the principal task, along with that of other churches, is to make God known all over the world."

SEVERAL HUNDRED ATTEND PANHANDLE BAPTIST MEET

Institute

(Continued from first page) a time of inspiration and to keep teachers in touch with educational frontiers.

Dean R. P. Jarrett of the Canyon College conducted the institute for three years following Mr. Morelock's resignation, and since 1926 Professor F. E. Savage has been conductor and executive secretary.

Professor Savage stated today that it is the purpose of the new organization to keep all the valuable features of the old institute and give the teachers of Northwest Texas the advantages of a type of meeting suited to the needs of 1933. The first program will be worked out in the early future in order to secure the best possible talent for the occasion.

The annual institute has always been looked forward to by Canyon people for it always brought back great numbers of teachers who had once been students here. The "homecoming" will be missed this fall, and it is hoped that the Educational Conference will bring as great a number to renew acquaintances here when it meets.

Business men, through the Chamber of Commerce have always donated to the institute, feeling that bringing a large number of teachers to the town each fall was profitable to the College and that it created a feeling of acquaintance and good will over the entire region. Each year one or more social events were planned as a part of the short stay of the visitors.

Superintendents have expressed their satisfaction that the Conference for Education has been organized and that it will have its first meeting in Canyon. President Hill stated Saturday that every effort would be made to make the first meeting so enjoyable and valuable that school people over northwest Texas will want other meetings.

College Play Night Will Be Held Wednesday

There is going to be another one of those good times known as a college play night at the Buffalo Stadium at 7:40 p. m., Wednesday night, Aug. 16th. This one will naturally be the best since so much interest has been stimulated by the reports of the play night of the past, and since this is the last one to be held, a big crowd is expected.

Both girls and boys will have plenty to do. One of the big events will be a match soft ball game between either a C. C. C. company team or a team from Amarillo and the college's best players. All the bicycle fans will have a chance to participate in the bicycle race. The length of the race is one quarter of a mile. Bicycles are to be furnished by Travis Shaw, Jr.

Alvin Morgan will have charge of the tumbling, wrestling, and boxing. Anyone interested in these sports should report to Morgan. He will try and give you a part.

The girls have planned a stunt of some sort. The stunt is unknown however, since they want to spring a big surprise on the crowd. Maybe the lights will be turned off and behold we will see one of the most beautiful sights, for instance, the dance of the seven veils and of course with the veils.

Games are being planned for the older gentlemen that are not so strenuous. We hope that we are allowed to see a big match of some kind between President Hill and Dean Cook.

The entire student body is expected to be on the field and help make the night a huge success.

100 GIRLS ENROLLED AT METHODIST CAMP

Mrs. T. C. Delaney of Lubbock enrolled 100 girls from Northwest Texas at the annual encampment held at the Methodist camp grounds, Ceta canyon, during the past week.

The girls went to the Palo Duro State Park Sunday afternoon and gave a program for the 600 men.

TOO MUCH ALARM

There's entirely too much "viewing with alarm" and not enough "pointing with pride" in this country. Too many people running around with long faces and drooping mouths. Too many ready to believe that the republic is either going to die or blow up. The fact is, it is not going to do either. Here in our own community we have entirely too many gloom gloom spreaders, and other towns are in the same fix. These prophets of gloom around Carmi who are still spreading their hands and making grim prophecies are doing more to forestall good times than any other class.

One citizen who goes about his work with a hearty good will and who looks into the future with hope and confidence is worth all the face of the earth. But just one optimist in a community is not enough. The need right now is for more men and women who can and will "point with pride" instead of going around "viewing with alarm."—Democrat-Tribune, Carmi, Illinois.

Miss Walker Gave Lyceum Number at the College Tuesday

An excellent audience heard Miss Darthula Walker, head of the geography department Tuesday night when her lecture "Glimpses of Foreign Lands" completed a series of six lyceum numbers furnished this summer by members of the faculty.

The lecture, which was illustrated with three reels of pictures, took the listeners to Egypt, India, Japan and Hawaii, these being among the most beautiful and little known of the countries visited by Miss Walker on her trip around the world as a member of the faculty of the Floating University.

Others who have appeared on the lyceum program this summer are C. W. Batchelder, Wallace R. Clark, Miss Ada V. Clark, Herschel Coffee, and Miss Mary Morgan Brown. Students have been much pleased with the programs during this summer session, declaring that they have been better than the majority of the programs secured through the lyceum booking agencies.

Intelligence is what you get from home. Common sense you must develop yourself. Learning is what you obtain in school. Knowledge is what the world hands you. Judgment comes only with the years. Experience is a bitter medicine administered by life itself, and must be taken with a bit of conscience. Wisdom is a phantom often chased but seldom overtaken. Success or failure are a matter of opinion. Reputation is the golden scale. Contentment the final objective.—Buckeye, Archbold, Ohio.

No Short Hours For This Hen

Lady Dixiana, the white leghorn hen Bernice Harris is holding, above, intends to go on about her work regardless of the national recovery act's stipulation of shorter hours. The hen, now on exhibit at the Century of Progress, Chicago, holds the record of laying 342 eggs in 365 days. She is from Clinton, Iowa.
